

## **US- RUSSIA Agreement on Cessation of Hostilities Monitoring Report 1**

This report is prepared based on all the information given mainly from a team formed mainly by Aleppo Local Platform with a plan to expand it to the other local platforms around Syria.

It is documenting the violations that happened during 24 hours starting from implementing the truce agreement in Syria, this report is not representing the whole violations that occurred all over the country but it is documenting the violations which were verified by a team in the country.

Twelve violations were documented in Aleppo province and its countryside, all of them targeted civic locations. The bombardment happened from ground defenders except for Alramosa area which was targeted with explosive barrels. Shooting with Machine gun (23) was documented in Barada in the grain stores. Flights of reconnaissance planes were recorded in Alhaj bridge area and three civilian casualties were recorded as a result of bombing Aldaman hill in Aleppo countryside.

In addition, a violation was documented in Idlib countryside western Jeser Alshoghoor, the area was targeted with Guided missiles from ground defenders. The area is a civic area and no injuries were registered.

In Damascus countryside, heavy shooting was registered and guided missiles on Madaya. In addition, no humanitarian aid entered the besieged area of Madaya. Moadamiet Alsham was closed completely on the 11<sup>th</sup> of September 2016. Opening the road in Moadamieh was conditioned of handover the arms and forcing the armed people who refuse before to leave the area, the same that happened before in Daraya. There are many threats of starting an inclusive war with explosive barrels and all types of shelling in case the people of Moadamiet Alsham didn't respond to these demands and no fire violations were documented in the city.

## **Some Reactions from Syrian people in the first 24 hours of the agreement:**

There has been adherence to the truce to stop the bloodshed. There is fear that the ceasefire will not continue to hold, especially that there is fears that all the areas will be targeted under the pretext of the existence of Fatih Alsham front. In addition, the lack of trust with the Syrian regime and Russia. The doubts came after the experience of the previous ceasefire. Also, the fears and what is being said about the truce that is for supporting the regimes position, all that is influencing negatively the general mood of the people and the way the people deal with truce.

The following recommendations were suggested by different members of the Syrian Civil Platform mainly about Aleppo:

- 1- To improve the terms of the agreement to be seen more fair between the two parties.
  - 2- To enter the humanitarian aid immediately and intensely including fuel.
  - 3- To not allow Russian troops and monitors on Castello road and any troops will be spread there should be neutral and not part of the conflict.
  - 4- To guarantee the freedom of movement for civilians and this is should not be limited on the evacuation of the wounded only.
  - 5- To stop the negative messages from all actors and encourage more positive reactions toward stopping the violence.
-

Day 1: 19:00 pm September 12<sup>th</sup>, 2016- 19:00pm September 13<sup>th</sup>, 2016

AREA NAME \ STRET \ NEIGHBORHOOD	DATE	TIME	TYPE OF VIOLATION	TYPE OF USED WEPON	NATURE OF THE TARGETED AREA	THE GROUP THAT COMMITTED THE VIOLATION, WITH EVIDENCE
