

US- RUSSIA Agreement on Cessation of Hostilities

Second Monitoring Report

September 15, 2016

This report documents the violations that occurred in the 24 hours since the truce agreement in Syria began implementation. It does not represent the entirety of the violations that occurred throughout the country, but rather documents the violations that were verified by a team in the country.

Four violations were documented in Aleppo province, two violations in Rejem al-Omarat, the bombardment was from ground defender system. Another violation occurred in Atareb on the main road wherein civilian vehicles were targeted by airforce machine guns; no injuries were recorded. In addition, a violation was recorded in Kaptan al-Jebal involving airforce guided missiles. An airplane broke the sound barrier over the Ajmashhad neighborhood in the city of Aleppo.

In Idlib province, three violations were documented in Jisr al-Shoghoor, Khan Shekhon and Al-Tamanaa. One violation involving ground defender system occurred and two violations involving guided missiles and vacuum missiles from the Syrian government airforce. The violations targeted civilian locations and no injuries were recorded.

In Hama province, three violations were documented in Al-Zalakiat, the sides of Maan and Kafar Zeita. The violations occurred with barrel bombs, guided missiles and cluster bombs. All targeted locations were civilian, and no injuries were recorded.

In Quneitra province two violations by ground defender system were documented in Mashara and Naba al-Sakher. One of the targeted locations was civilian and the other was military. The bombardment came from a Syrian army location in Al-Shaar hill.

In the Damascus countryside two violations were documented. One took place in Ifra village and another in Barada Valley's main road involving tank shells and heavy machine guns.

Some reactions from Syrian people in the first 48 hours of the agreement:

There is fear that the truce will not succeed, but there is also hope that it will continue. A group of activists released a hashtag (#with_truce_against_killing) in order to mobilize Syrian public opinion towards supporting the success of the truce to the highest degree possible.
