

US- RUSSIA Agreement on Cessation of Hostilities

Seventh Monitoring Report

September 20, 2016

This report documents the violations that occurred on the seventh day of the truce, September 19, 2016. It does not represent the entirety of the violations that occurred throughout the country, but rather documents the violations that were verified.

There were fourteen violations documented during the seventh day. Ten violations occurred in Aleppo, namely in the neighbourhoods of Sukari, Masarni and Marjeh, as well as in the southern rural area and Hilalat village. All of the targets were civilian, and residential neighbourhoods were targeted with barrel bombs from military aircraft that killed three civilians. The identity of one of the casualties was confirmed; Ali Abji, 18 years old. In addition, 40 civilian casualties were recorded. A rocket launched from the Defense Ministry military factories was documented without a known target. In addition, it was documented that there was bombardment with white phosphorus munitions from military aircraft against the 1070 Residential Compound just after the government announced that the truce had expired.

In Hama province, there were violations documented in Kafr Nboudeh and Mourik with vacuum missiles from military aircraft against residential neighbourhoods; no casualties were recorded.

In Idlib, one violation was documented in Eskik on the main road, where vacuum missiles were used. No casualties were documented.

In Rural Damascus, it was reported that several positions on Zabadani's eastern mountain were targeted with five air-raids from military aircraft at 1:30 p.m.

On the Humanitarian Level:

In Aleppo's western rural area, Urum al-Kubra, 18 lorries in a Red Crescent warehouse compound were targeted. This led to the deaths of many Red Crescent volunteers, among them Omar Barakat, the head of Urum al-Kubra's Red Crescent branch. No aid was documented entering from the Turkish-Syrian borders to the besieged city of Aleppo.

In Homs, a lorry from the Red Crescent and ICRC delivered humanitarian aid into Talbeseh, in northern rural Homs. The lorry contained food, wheat, and materials for repairing water networks. In al-Waer neighbourhood, the people that were included in an agreement to be transferred to Idlib have not left. The UN apologized for this, saying that the roads are too dangerous.

Day 7: 19:00 pm September 18th, 2016- 19:00pm September 19th, 2016

The same table is provided in Arabic for the accuracy of the place names.

PROVINCE \ NEIGHBOURHOOD D \ STREET	DATE	TIME	TYPE OF VIOLATION	TYPE OF WEAPON USED	TYPE OF AREA TARGETED	TARGETED AREA	GROUP WHO COMMITTED THE VIOLATION
